LITERACY
Typing

To practice typing offline, download 10 Finger Breakout

Always check with your parents before downloading any software!
Turn your stories into comics!

To create your own cards, stories and animations try KERPOOF
Increasing vocabulary is easy with another BBC favourite, Wordmaster.
Scratch

Scratch is a programming language that makes it easy to create your own interactive stories, animations, games, music, and art -- and share your creations on the web.
As young people create and share Scratch projects, they learn important mathematical and computational ideas, while also learning to think creatively, reason systematically, and work collaboratively. Click on the image to learn more about Scratch!

To download scratch onto your home computer click here

Are you ready for simple, easy and creative stop motion movie making? Then try Jelly Cam (IT'S FREE) and become your own movie maker!

JellyCam
A simple stop motion animation maker.

Make your own Super Mario level... read instructions carefully! Click on the image to get started!
WANT TO MAKE YOUR OWN WEBSITE? NVU IS THE EASIEST WAY TO DO IT!

Always check with your parents before downloading any software!
WANT TO MAKE MUSIC? - TRY AUDACITY - MIX TRACKS AND CREATE MUSIC!

Always check with your parents before downloading any software!
